

### FULLY EQUIPPED CRASH CART

**\$ 15,000**

With all acute care emergency equipment, including  
Defibrillator and pulse oximeter.  
To rush emergency aid in critical care situations.

### HEART MONITORS

**\$ 12,000**

Attached to the critical care patient, this machine keeps moment-to-moment track of all  
essential heart functions and alerts doctors and nurses to any sudden change in vital  
heart functioning, especially during weaning from respirators.

### DEFIBRILLATORS

**\$ 10,000**

Electric-shock, life-saving apparatus for victims of heart attacks.  
Used for patients in intensive care.

### STANDARD ELECTRO-CARDIOGRAPHS (ECG)

**\$ 6,000**

A regular "workhorse" for day-to-day use in heart examination.

### MOBILE VITAL SIGNS MONITOR – SIX required

**\$ 3,500**

Measures blood pressure (non-invasive), oxygen saturation, pulse rate and body  
temperature. Used for very ill patients who are not in intensive care.

### PULSE OXIMETERS – TWENTY required

**\$ 1,800**

Important diagnostic device for patients with breathing and circulatory  
problems. It measures the amount of oxygen in the blood.

### MONITOR FOR GENERAL PARAMETER

**\$ 2,500**

Measures the cardiac rhythm and amount of oxygen and temperature  
in the blood continuously.

### FOOD PUMPS ("Kangaroo")

**\$ 1,000**

To control flow of nutrients through infusion

**CUSTOM DESIGNED CHILDREN'S BEDS WITH SPECIAL MATTRESS** - 30 required

**\$ 6,000**

For the children in the Children's Chronic Respiratory Care Department.

**STATE-OF-THE-ART ADULT BEDS** – 200 required

**\$ 6,000**

For rehabilitation and acute care patients, with attachments for respirator apparatus, oxygen generators and other vital life-saving devices

**SPECIAL MATTRESSES** – SIXTY required

**\$ 4,500**

Used for acute care and other patients requiring special care who are at high risk of developing pressure sores

**RESPIRATORS FOR ADULTS – TWENTY FIVE required**  
**\$ 28,000**

Used to support patients who are unable to  
breath on their own

**RESPIRATORS FOR CHILDREN – TEN required**  
**\$ 22,500**

Used to support children who are unable to  
breath on their own.

**CO2 LEVEL METER (Capnograph)**  
**\$ 3,750**

Device to measure Carbon Dioxide level of patients on  
respirators, so as to make sure that the  
ventilation is effective.

## SPECIAL NEED WHEELCHAIRS FOR CHILDREN

**\$ 5,000**

Tailor made for each child on a respirator, designed specifically to meet the needs of each child as they grow.

## SPECIAL NEED WHEELCHAIR

**\$ 3,000**

For patients with special needs such as in Physical Rehabilitation and Complex Nursing Departments.

## HOIST FOR LIFTING PATIENTS

**\$ 6,250**

Crane to lift disabled patients from bed to chair

## SCALE FOR HOIST

**\$ 3,750**

To weight patients in their beds. This is most important as many patients cannot get out of

## WHEELCHAIR SCALE (foldable ramp) **\$ 2,500**

Enables staff to weigh a patient who is in a wheelchair and can't stand

בית החולים ע"ש הרבנית שרה הרצוג ד"ל ע"ר. • 580082303 • רח' גבעת שאול, ת.ד. 3900, ירושלים 91035 • טל. 02-5316875 • פקס. 02-6521880  
מסונף לפקולטה לרפואה של האוניברסיטה העברית בירושלים

### PATIENTS CHAIRS

**\$ 750**

Reclining chairs for patients to sit on, so that they are not always in bed

### GUEST CHAIRS

**\$ 125**

100 needed to be distributed in all Hospital departments

### DINING ROOM TABLES

**\$ 625**

For patients to enjoy their meals

### FLOOR CLEANING MACHINES

**\$ 3,750**

### COMMERCIAL DISHWASHER

**\$ 5,000**

### HEATING FOOD CARTS

**\$ 37,500**

Enables food to be served hot to patients in the departments

### **MOBILE X-RAY UNIT**

**\$ 50,000**

Needed to make X-Ray examinations for non mobile patients in their beds, without the need to transfer them to Radiology.

### **BLADDER SCAN**

**\$ 22,000**

A portable bed side ultrasound used to scan the amount of urine in the bladder for diagnosing urine retention and the need for a urinary catheter. Urinary retention is a common problem amongst the elderly patients.

### **COUGH ASSIST MACHINE**

**\$ 9,000**

A crucial ventilator assist therapy for patients in the Chronic Respiratory Care Department.

### **WHEELCHAIR CUSHIONS**

**\$ 200 per pillow**

**\$7000 to equip an entire department**

Needed to prevent pressure sores in geriatric patients who are confined to wheelchairs.

Pressure sores are a leading cause of morbidity and mortality amongst the geriatric patients.
